1. NATURE OF BUSINESS AND GOING CONCERN

Rush Gold Corp. (the "Company") was incorporated on June 23, 2020 under the laws of the Province of British Columbia, Canada by a Certificate of Incorporation issued pursuant to the provisions of the Business Corporations Act (British Columbia). The principal business of the Company is the acquisition, exploration and evaluation of resource properties. The head office of the Company is located at 650-1231 Pacific Blvd., Vancouver, British Columbia, V6Z 0E2, Canada.

On June 20, 2025, the company's shares started trading on the Canadian Security Exchange ("CSE") under the symbol RGN, and on July 8, 2025, the Company shares began trading on the Frankfurt Stock Exchange ("FSE") under the symbol B6H.

These financial statements have been prepared on a going concern basis, which assumes the Company will continue its operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company incurred a loss of $444,722 during the six months ended October 31, 2025 (2024 - $18,638), has a working capital of $291,214 as at October 31, 2025 (April 30, 2025 – working capital deficiency of $99,099), and has an accumulated deficit as at October 31, 2025 of $890,391 (April 30, 2025 - $445,670). The Company does not earn revenue and is reliant o share issuances for its funding. There is no assurance that sufficient funding (including adequate financing) will be available to conduct its business. These factors may present a material uncertainty over the Company's ability to continue as a going concern. The application of the going concern concept is dependent upon the Company's ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. These financial statements do not give effect to any adjustments that might be required should the Company be unable to continue as a going concern.

2. BASIS OF PREPARATION

Statement of compliance

These interim financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting. These interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the year ended April 30, 2025, which have been prepared in accordance with IFRS. These interim financial statements were authorized for issue on December 22, 2025 by the Board of Directors of the Company

Basis of measurement

These interim financial statements have been prepared on an accruals basis and are based on historical costs, except for certain financial instruments classified as financial instruments at fair value through profit or loss. These Financial Statements are presented in Canadian dollars unless otherwise noted

Functional and Presentation Currency

The presentation and functional currency of the Company is the Canadian dollar. All amounts in these financial statements are expressed in Canadian dollars ("CAD"), unless otherwise indicated.

2. BASIS OF PREPARATION (Continued)

Use of judgments and estimates

The preparation of these interim financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and for any future years affected.

Critical judgments and key sources of estimation uncertainty in applying accounting policies

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the condensed interim financial statements.

Deferred taxes
Management is required to make estimations regarding the tax basis of assets and liabilities and related deferred income tax assets and liabilities, the measurement of income tax expense, and indirect taxes. A number of these estimates require management to make estimates of future taxable profit, and if actual results are significantly different than estimates, the ability to realize the deferred tax assets recorded on the statements of financial position could be impacted. The Company is subject to assessments by tax authorities who may interpret tax law differently. These factors may affect the final amount or the timing of tax payments.

Contingencies
Due to the nature of the Company's operations, various legal and tax matters are outstanding from time to time. In the event that management's estimate of the probability of a financial impact of these matter changes, the Company will recognize the effects of the changes in its condensed interim financial statements on the date such changes occur.

Impairment indicators
The assessment of impairment indicators as required by IFRS 6 – Exploration for and evaluation of mineral resources and International Accounting Standard ("IAS") 36 – Impairment of assets requires management to make judgements in estimates for costs, future commodity prices or recoverable reserves underlying its exploration and evaluation assets.

Other significant judgments in applying the Company's accounting policies relate to the assessment of the Company's ability to continue as a going concern (Note 1), and the classification of its financial instruments.

3. MATERIAL ACCOUNTING POLICIES

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component. The fair value of the common shares issued in a private placement is determined to be the more easily measurable component and are valued at their fair value, as determined by the closing quoted bid price on the day prior to the announcement date. The balance, if any, is allocated to the attached warrants. Any fair value attributed to the warrants is recorded as share-based payments reserve.

3. MATERIAL ACCOUNTING POLICIES (Continued)

Other than the above mentioned, the accounting policies followed in these condensed interim financial statements are the same as those applied in the Company's most recent audited financial statements for the year ended April 30, 2025.

Accounting standards and amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. MINERAL PROPERTY

Skylight Property, Nevada, USA

On July 15, 2021, and as amended on February 28, 2022, June 30, 2022, April 3, 2023, August 18, 2023, October 31, 2023 and January 5, 2024, the Company entered into a purchase option agreement (the "Option Agreement") with Silver Range Resources Ltd. ("Silver Range") and Manta Minerals Ltd. ("Manta"), whereby the Company was granted exclusive rights to acquire 100% of Silver Range's 2 mining claims located in Nevada, United States.

As the Company's listing was not completed by March 31, 2024, the Option Agreement was automatically terminated in accordance with the terms of the agreement.

On January 10, 2025, the Company entered into a new purchase option agreement ("New Option Agreement") with Silver Range and Manta, whereby the Company was granted exclusive rights to acquire a 100% in the 16 mining claims comprising the Skylight Property located in Nevada, United States. The agreement was amended on April 24, 2025.

In order to exercise the option, the Company must meet the following commitments:

a) paying Silver Range the following aggregate payments:
   i. $10,000 on or before January 31, 2025; (paid)
   ii. an additional $5,125 on or before May 1, 2025; (paid)
   iii. an additional $100,000 on or before the 13-month anniversary of the IPO; and
   iv. an additional $200,000 on or before the 25-month anniversary of the IPO;
b) issuing to Silver Range the following aggregate shares:
   i. 80,000 Shares upon the completion of the IPO; (issued) (Note 10)
   ii. an additional 100,000 Shares on or before the first anniversary of New Option Agreement;
   iii. an additional 200,000 Shares on or before the second anniversary of New Option Agreement; and
   iv. an additional 300,000 Shares on or before the third anniversary of New Option Agreement;
c) completing an aggregate 3,000 m of drilling on the Property on or before the third anniversary of New Option Agreement; and
d) providing the Operator with $4,400 USD (paid) on or before April 1, 2025 for the express purposes maintaining the mining claims comprising the Property in good standing under applicable Nevada mining and land laws for the periods ending no earlier than September 1, 2026.

4. MINERAL PROPERTY (Continued)

Legal Tender, Nevada, USA

On September 15, 2025, the Company entered into a new agreement ("Legal Tender property option agreement") with Silver Range and Manta, whereby the Company was granted to acquire a 100% in GR 1 through 12 mining claims, located in Nye County, Nevada, United States of America.

In order to exercise the option, the Company must meet the following commitments:

a) paying Silver Range not less than an aggregate $200,000 as follows
   i. $3,000 on the execution of this Agreement by both Silver Range and Rush Gold; (paid)
   ii. an additional $12,000 on or before the sixth month anniversary of the Effective Date;
   iii. an additional $25,000 on or before the first anniversary of the Effective Date;
   iv. an additional $40,000 on or before the second anniversary of the Effective Date
   v. an additional $50,000 on or before the second anniversary of the Effective Date; and
   vi. an additional $70,000 on or before the fourth anniversary of the Effective Date; and
b) completing an aggregate 1,000 m of drilling on the Property on or before the fourth anniversary of this Agreement;

Fair value

The fair value of financial assets and financial liabilities at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amounts of all its financial assets and financial liabilities recognized at amortized cost in these financial statements approximate their fair values due to the demand nature or short-term maturity of these instruments. Cash is classified as Level 1 fair value. There were no transfers between Level 1 and Level 2 during the period end October 31, 2025.

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data. As at October 31, 2025, the Company does not have any Level 3 financial instruments.

As at October 31, 2025 the Company's financial instruments consisted of cash, accounts payable and accrued liabilities, and subscriptions payable, which are all measured at amortized cost.

The carrying values of accounts receivable, accounts payable and accrued liabilities, due to related party, and subscription payable approximate their fair values due to the short period to maturity.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk
Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. All of the Company's cash is deposited in bank accounts held with a major bank in Canada As all of the Company's cash is held by one bank, there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to credit risk is on its other receivables. This risk is minimal as receivables consist primarily of refundable government goods and services taxes.

Liquidity risk
Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Market risk
Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

Market risk (Continued)

(a) Interest rate risk
Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The Company's cash is held in an account with a major

Canadian financial institution with minimal interest. A 1% change in market interest rates would not have a material impact on the Company's net loss.

(b) Foreign currency risk
Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has minimal transactions in other currency and is not exposed to significant foreign exchange rate risk.

(c) Other price risk
Other price risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. As at October 31, 2025 the Company has no investments in publicly traded securities and is not exposed to price risk.

12. CAPITAL MANAGEMENT

Capital is comprised of the Company's shareholders' equity. As at October 31, 2025, the Company's shareholders' equity was $383,959 (April 30, 2025, shareholders' deficiency - $57,185) and current liabilities was $80,038 (April 30, 2025 - $148,925). The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its future liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels. The Company currently is not subject to externally imposed capital requirements, and there have been no changes in the Company's management of capital during the year.
